PROFESSIONAL SUMMARY

My strong attention to detail and commitment to creating user-friendly and visually appealing websites sets me apart as an exceptional front-end developer. I have a deep understanding of design principles and a passion for delivering high-quality, optimized websites that provide the best user experience.

EXPERIENCE

Dumena, Abuja — *Frontend Developer*

January 2023 - Present

- Collaborate with lead developer, designers, product managers, and others in the creation of design-detailed, UX-savvy digital products
- Created and maintained front-end code for eCommerce websites (re-designs, seasonal updates, production work)
- Led troubleshooting, fixed 1,000+ bugs, and updated sites throughout the production lifecycle
- Worked with clients to develop the overall look and design of websites
- Wrote website code using HTML, CSS, Tailwind, JavaScript, Typescript and React.js
- Incorporated applications, graphics, audio, and video clips into client websites
- Ensured websites were accessible across multiple platforms
- Routinely tested websites for ease of use, speed, and quality factors
- Fixed website issues and bugs that aros

EDUCATION

Kaduna State University, Kaduna — *BSC. Agriculture*

December 2012 - December 2017

SOFT SKILLS

Communication: Ability to clearly articulate technical information and ideas to both technical and non-technical stakeholders.
Collaboration: Ability to work effectively with cross-functional teams, including designers, developers, and product managers.
Problem-solving: Strong analytical and problem-solving skills to identify and resolve complex technical issues.
Adaptability: Willingness to continuously learn and adapt to new technologies and changing project requirements.
Attention to detail: Ability to produce high-quality code with a strong attention to detail and ability to spot edge cases.

DevCareer, Abuja— *Frontend Developer(Intern)*

September 2022 - December 2022

- Collaborated with the development team to understand project requirements and design specifications
- Wrote clean and efficient code using HTML, CSS, JavaScript, and other front-end technologies
- Created and implemented user interfaces and interactive elements, such as buttons, forms, and navigation menus
- Debugged and fixed technical issues related to the front-end of web applications
- Stayed up-to-date with the latest web development trends and technologies
- Participated in code reviews and contributed to the development of best practices and coding standards
- Assisted with the creation and maintenance of project documentation
- Participated in team meetings and worked with other team members to resolve technical issues
